Knowledge, Training, and Experience

- A history professor who specialized in medieval European history. He has considerable knowledge of European folklore, customs, histories, and languages, with his specialty being the Medieval period.
- He saw action early in the war and has become numb to some of the everyday horrors of war (such as the sight of mangled bodies, the presence of too many innocent victims, and the ever present pungent smell of death).

Personnel Dossier

Place of Birth: Halifax, Nova Scotia, Canada

Date of Birth: March 8th, 1917 (24)

Oscar "*The Professor*" Durant came from humble beginnings, first as an orphan and then in school as he aimed for higher goals. He was rewarded a scholarship to university where he excelled in the academic world. He was a Professor of History for two years before the coming of the war.

He volunteered for active service once war was declared. He saw his first action in the end of '39. It forever changed him. He has seen evil, the Nazis, and he will give his life to defeat it if he has to.
