BACKGROUND:

- Canadian; born in Halifax, Nova Scotia.
 - Junior crew member of the Zephyr that launched in 1973. Crash landed in 3980 on 'unknown' planet.
 - One of three survivors out of a crew of ten. The rest were killed in the crash. His fellow astronaut survivors are Karen Woodward (British) and Thomas Lehman (American).
 - The surviving astronauts befriended a Chimpanzee scholar known as Creddan. It was Roger's skill with medicine that saved Creddan's life who was suffering from the 'swamp sickness' (malaria).
 - The surviving astronauts and their chimpanzee ally are being hunted by a squad of gorilla soldiers known as the Black Sword (named by its founder, a General Volkin, who beheaded an underdweller leader with a sword in the Great Purge that happen 50 years ago). The order is tasked with dealing with underdwellers and similar threats to Ape City.
 - Roger has recently befriended a female underdweller known as Gemma. She helped him escape after he was captured by gorilla Black Sword soldiers.
