Origin and Background: (American) Alice King is the latest name of many that she has used over the years. She has drifted from one con to another as she accumulated a small fortune in dirty money. It was in Chicago

where as Alyssa Kirby, she conned her way into a private gentleman's club and was in the process of stealing some club valuables when she was caught. She was sent to jail but somehow never arrived.

She turned up again but this time it was in Miami as Aletha Knight. She had conned her way into a hotel under the pretense that she was working for a prince and was there to inspect his suite for his upcoming arrival. The hotel management immediately fell for her and she lived like a queen on the hotel's tab. The con would have continued but the prince actually showed up unexpectedly. She was caught and arrested. Again, she never showed up at the jail.

Over the years Alice King had built a network of loyal women who serve her. She brought the women together into one place – her mansion estate in New Augustus. She created a legitimate company called the Aphrodite Society. It's mission statement is to aid and restore the health of women. As a health spa, it has many respectable and wealthy clients. Alice King is the public face of the Aphrodite Society.

The Aphrodite Society is a secret criminal syndicate dedicated to the worship of Aphrodite, with Venus de Million being her representative on earth. Her followers are all fanatical to the cause. As Venus, she wears her *Medusa Gloves* and carries her *Electro-Flux Ray Pistol*. She has been known to turn anyone who disappoints her into stone and then she has the statue broken up into little pieces. Venus likes to use her charm to get close to a victim and then use her Weakness Detection power to get an assessment of who she is dealing with.
